

Art / DT

This term we will be focusing on DT. We will be using a range of materials and techniques to creatively design and make products related to our topic, Space.

History/Geography

This term the children will investigate all things Space! We will look at the planets, stars and moon, as well as learning about some significant events and people related to Space and the space station. The children will investigate different rockets and space missions.

Computing

We will begin this term focusing on basic computer skills. The children will be able to use strategies to stay safe when using ICT and the internet and identify common uses of information technology beyond school.

Music

The children will be exploring how sounds can be made and changed. The children will learn to repeat short, rhythmic, and melodic patterns to a given beat.

PE

There will be a mixture of multi-skills activities this term which will allow the children to develop their agility, balance, and co-ordination. We will be working hard to master basic movements and apply them to a range of activities.

Key Stage One - Autumn Term 2020

Space

Welcome back to a new school year! I hope you all had a happy and wonderful Summer! We have a very exciting term ahead!

English

Fiction

Linked to our topic, the children will explore 'Whatever Next' The children will imitate and innovate using the original text before then inventing and writing their own story!

Non-Fiction

The children will have the opportunity to explore a range of non-fiction texts and their features. Following our topic of Space, the children will create their own non-chronological report.

Phonics

Children will learn the terminology for the features they are using and steadily work through several phases to support their reading and writing.

Grammar

The children will be building their confidence in using the correct grammar terminology. Whilst this will be embedded in all our English lessons, we will be enhancing the children's knowledge through the use of 'two minute teasers' and grammar focused sessions.

Science

Our focus this terms links to our topic - we will be looking at everyday materials and their properties. We will be exploring the properties of everyday materials through a range of tests. The children will begin to make predictions, conduct comparative tests and record their findings.

Maths

We will begin the term recapping place value and building on the children's prior learning and understanding. This will include reading and writing numbers to 10, 20, 100 and beyond. We will be exploring addition and subtraction as well as looking at time. The four main operations will be a focus throughout the year, and we will be consolidating our learning at the end of the term with a focus on problem solving and reasoning.

R.E

This term the children will be thinking about Islam, with our key question being 'What does it mean to be a Muslim and how do they live?' We will explore the idea that Muslims believe in God and that the Qur'an is the key way of finding out what they think God is like. We will look at Allah, the Prophet and explore the ways in which Muslims celebrate their religion.

Dear Parents, this brief overview is to let you know what your child will be covering in the Autumn term. Remember you can help at home by practising daily for a few minutes: reading, phonics, number bonds, writing, spellings and tables. PE kit should be in school every day please with water bottles and book bags - please make sure these are all name labelled. The children will receive spellings via spelling frame, to be tested the following Friday. Homework will also be online every Friday and needs completed by the following Thursday. Please help them to do this carefully! Thank you for your continued support, Mrs Atkins and Mrs Hunter
